And it's not as if his soccer team is even any good without him! They lose all the time until lightning strikes. When his team plays near a nuclear power plant, a weird energy passes through Leonard, and that night he is visited by zombies. During a ghostly conversation with the entire 1966 England World Cup soccer team, the players tell him that if he follows their instructions, he'll finally make the school team and start winning. Leonard obeys and the team's prospects surge, but at what price? What pound of flesh will the zombies demand? The newest young-adult novel by celebrated writer Pete Kalu, *Zombie XI* is a multicultural tale of not just zombies, but also friendship, family, and the at times fraught world of teen relationships.
