Excerpt: .fell to capital would be found by assuming that the dividend was one at the rate of 7 per cent per annum, and allocating for the period from 1st January to 31st May. In actual practice this is worked out as follows: On the receipt of the interim dividend at the rate of 6 per cent in July, the proportion relating to capital, being the amount for the period from 1st January to 31st May, would be ascertained and placed to the credit of capital. On the receipt of the dividend for the next half-year, which would be received in January, the proportion thereof which would be required to bring the dividend from 1st January to 31st May already allocated at 6 per cent up to 7 would then be placed to capital. Further, suppose a trustee die on 26th November, after having...

Reviews

This ebook is great. It typically will not expense a lot of. You will not sense monotony at any moment of your own time (that's what catalogs are for about when you question me).
